Send a comment via U.S. mail to:

James Shankel, Senior Environmental Planner Branch Chief – Environmental Studies "C" California Department of Transportation District 8 Division of Environmental Planning 464 W. 4th Street, MS 827 San Bernardino, CA 92401-1400

Public comments are due by July 7, 2011.

Project Delivery Methods

- Design-Bid-Build:
 Complete design prior to construction
- Design-Build:
 Design and construction can occur simultaneously.

The I-15/I-215 Interchange Improvements
Project is one of 10 pilot projects approved in
California to use the Design-Build method.

Design-Build method saves time and promotes teamwork among designer, contractor and Caltrans.

Design-Build Process

- Step 1 Request for Qualifications:
 Potential Design-Build firms are prequalified
 by submitting Statements of Qualifications
- Step 2 Request for Proposals:
 Prequalified firms submit proposals.
 Caltrans will choose a "best value"
 Design-Build firm based on evaluation and selection criteria

Estimated Design-Build Selection Schedule	
Advertise RFQ	July 15, 2011
Receive SOQ	Sept. 1, 2011
Prequalify Firms	Nov. 1, 2011
Release RFP	Late 2011
Receive Proposals	Mid-2012
Award Contract	Late 2012
